Advice

The tables above represent geographical reference for the history of the vehicle. The information may be useful for tracing true countries of previous registrations.

Note

Some events may be out of “carVertical” data coverage, others may be duplicates. In some cases, the indicated geographical location may represent the location of a vendor, rather than actual location of the vehicle itself.

i Note

“carVertical” cannot guarantee neither the correctness nor the completeness of mileage records. In some cases, the date of a mileage record may be approximate.

Damage

**WE DID NOT DETECT SIGNIFICANT ACCIDENTS WHILE ANALYZING
1F66F5DY1H0A13909 HISTORY**

Martin | carVertical expert for damaged vehicles

For more than 20 years now, I work with damaged vehicles.

Flooded cars, cars made out of 2, poor repairs – I've seen it all.

Therefore at carVertical, we employ a unique, data science driven damage detection. We conducted a thorough analysis and did not find sufficient evidence that this vehicle had suffered a serious accident or other severe damage.

However, occasional inaccuracies can occur, especially when checking older cars. Underground garage mechanics often illegally disguise vehicle defects or damage not recording them anywhere. Sometimes they even replace car VIN plates or perform other illegal acts. We have a variety of methods to detect even such crimes, but it's impossible to guarantee 100%.

List of countries that we performed the check in

Our conclusion is based on the information from 28 countries with an overall fleet of more than 350 million cars.

US

We checked
245,232,009 of all
vehicles
